REFLECTING ON MISSION AND IMPACT: A MESSAGE FROM OUR LEADERSHIP

Deborah Johnson

Tarrah Lowry

“As we reflect on this past year, we are filled with appreciation and hope.

At the heart of all we do is you—our donors, supporters, and partners—who, for over 45 years, have embraced and advanced our mission of compassionate care for all in their time of greatest need.

This year, our incredible team of caregivers, volunteers, and staff has demonstrated steadfast dedication, reaching out to families across our community and beyond. Coming from diverse backgrounds, they have

united with one purpose: bringing comfort, dignity, and peace to those we serve.

One of the most significant milestones in 2024 was our merger with Empath Health, a non-profit leader in full-life care. Together, we are now serving 1 in every 5 hospice patients across Florida, and we have become the largest non-acute care organization in the United States. This union wasn't about growing larger but becoming stronger, more innovative, and better equipped to meet the evolving needs of our communities, patients, and families.

HOSPICE FOUNDATION
Supporting Your Nonprofit End-of-Life Care Provider

A MESSAGE FROM OUR CEO

“As we reflect on 2024, I am filled with immense pride and gratitude for all we’ve accomplished together.

This has been a transformative year for Empath, marked by our continued commitment to compassionate care and innovative growth. **One of the most significant milestones was the addition of Trustbridge to the Empath Health network, making us the largest not-for-profit hospice provider in Florida.**

Through our Full Life Care mission, we have served 76,000 individuals across 20 counties, with \$17 million in uncompensated care provided to those in need. We have achieved so much thanks to the 4,300 colleagues and 3,700 volunteers who dedicated 355,000 hours of service, valued at \$11 million. Thank you one and all!

76,000

\$17,000,000

in Uncompensated Care

4,300

Colleagues

Looking ahead to 2025, our focus remains on expanding access to high quality care, investing in our colleagues, enhancing operational excellence, and fostering partnerships that will allow us to serve even more Floridians. Together, we will continue to transform lives through empathy, care, dignity, and compassion.

Trustbridge and Empath Health – *A Shared Vision*

Jonathan D. Fleece

Yours in Mission,

A handwritten signature in black ink that reads "Jonathan D. Fleece".

Jonathan D. Fleece, JD
President and CEO, Empath Health

Welcome Trustbridge

Building the mission, enhancing compassionate hospice care for all in our communities.

In 2024, Empath Health reached a significant milestone with the affiliation of Trustbridge, a leading provider of hospice care in Southeast Florida. This strategic partnership not only expanded our geographic reach but also strengthened our ability to deliver innovative and high-quality care to individuals and families on Florida's east coast.

FULL LIFE CARE

By joining forces, Empath Health and Trustbridge have created a more unified and efficient network of hospice services, streamlining operations, sharing best practices, and elevating the overall standard of care. Trustbridge has long been recognized for its compassionate and

comprehensive services through Hospice of Palm Beach County and Hospice by the Sea—organizations with deep roots in their communities and a legacy of excellence in end-of-life care.

This affiliation has significantly increased Empath Health's capacity to serve, grow, and innovate, ensuring that more patients and families receive the support they need, regardless of financial circumstances. With a shared commitment to compassionate, patient-centered care, this expanded network enhances our ability to provide vital services, including over \$17 million in uncompensated care annually.

A Stronger Network, A Greater Impact

With the addition of Trustbridge, Empath Health's hospice network now includes seven distinguished hospice programs:

						
Tidewell Hospice	Suncoast Hospice	Hospice of Marion County	Empath Hospice	Suncoast Hospice of Hillsborough	Hospice of Palm Beach County	Hospice by the Sea

Empath Health and Trustbridge colleagues celebrate integration successes with Surprise and Delight visits.

Together, these programs collectively serve more than 30,000 hospice patients each year, reinforcing Empath Health's leadership in end-of-life and Full Life Care. The integration of Trustbridge marks a pivotal step forward, strengthening our mission to provide dignified, compassionate care to individuals and families across Florida.

Beyond hospice services, this partnership enhances our ability to offer a broader spectrum of Full Life Care, including palliative care, home health, adult day services, and

caregiver support programs. By working together, we can improve access to essential services, expand grief and bereavement support, and introduce new, innovative programs that address the unique needs of the communities we serve.

As we move forward, Empath Health and Trustbridge remain dedicated to a common goal: ensuring every person receives the care they need, when they need it most, with dignity, respect, and compassion.

Together, we continue to serve Floridians with comprehensive, compassionate *Full Life Care*.

EMPATH HEALTH / TRUSTBRIDGE

Here for the Full Life

Trustbridge and Empath Health are uniquely devoted to pioneering and embracing care that provides for the full life.

We're here for all stages of care, for all dimensions of well-being and for all aspects dear to one's life. We consider it a privilege and a calling to give more of ourselves in order to offer a truly exceptional experience, unlike any other.

PEDIATRIC CARE

Pediatric Palliative Care

Families Can Turn to Trustbridge.

Serving our youngest neighbors and their families is a passion-driven mission. To meet the growing needs of local families, Trustbridge has expanded home-based pediatric palliative care (non-terminal comfort) and hospice services. Trustbridge provides services for families referred from all local children's hospitals, including: Nicklaus Children's Hospital, Joe DiMaggio Children's Hospital, Florida's Children's Medical Services Health Plan (CMS) and Palm Beach Children's Hospital at St. Mary's Medical Center. As partners with the local non-profit Pediatric Oncology Support Team (POST), Trustbridge caregivers support those traveling the childhood cancer journey. Each of these partnerships enables Trustbridge to fulfill its commitment to provide a comprehensive support system for families.

Cristina Florido

"Trustbridge approaches each patient we encounter with a deep sense of empathy, understanding that each journey is uniquely difficult for both the child and their family. Compassionate care in this

context means not just managing symptoms or offering physical comfort, but also being present, and offering emotional support. It's about listening to their fears, honoring their wishes, and giving them a sense of dignity and peace as they navigate this challenging time.

Every touch, every word, and every action matter—because in these moments, we are more than caregivers, we are partners in a deeply personal experience. We are committed to ensuring that the child and their family feel loved, valued, and heard."

"We are committed to ensuring that the child and their family feel loved, valued, and heard."

— Cristina Florido
Pediatric Specialist, Trustbridge

EXPERTISE

The Trustbridge Pediatric Palliative Team is honored to lend its expertise to St. Jude's Hospital, Nashville, and University of Miami Pediatric Palliative Program.

CAREGIVER EDUCATION

In keeping with our commitment to caregiver education, Trustbridge ensures its physicians and nurses have the specialized training they need to compassionately and confidently care for families navigating the challenges of chronic or terminal illnesses in children.

Pediatric Music Therapy

In 2024, Trustbridge expanded its commitment to pediatric care by introducing full-time pediatric music therapy roles—an initiative that brings comfort and healing to our youngest patients. Carly Graefe and Saralynn Corey, who first joined Trustbridge through the Addison Hines Music Therapy Internship Program, have embraced these roles.

Carly Graefe

Saralynn Corey

As part of the Pediatric Team, Carly and Saralynn develop personalized therapy plans for every child. The marvelous power of therapeutic music connects with each child and their family as it provides young ones an active role in their treatment and creates beautiful family memories.

“My time as an intern at Trustbridge was infinitely rewarding. I am proud to be the music therapist for pediatric patients in Palm Beach County.”

— Carly Graefe,
Pediatric Music,
Palm Beach County

“I love that every pediatric music therapy visit creates musical experiences that are just as unique as the children and families I have the pleasure of working with.”

— Saralynn Corey,
Pediatric Music Therapist,
Broward County

Extraordinary Comfort Care: Bridging Gaps in Pediatric Care

Families are deeply grateful for the Foundation’s Extraordinary Comfort Care fund, which provides for extraordinary comfort measures, and care needs.

The Affordable Care Act’s (ACA) Concurrent Care for Children Requirement (CCCR) ensures that children receiving hospice care can also continue life-prolonging treatments. This means families do not have to choose between comfort-focused hospice support and ongoing medical treatments that may extend their child’s life. However, when

delays or denials occur—such as due to incomplete paperwork—families risk facing unexpected financial burdens. Thanks to Extraordinary Comfort Care, we can bridge these gaps, and pediatric patients receive time critical treatments with the compassionate care they deserve.

PEDIATRIC CARE

Bereavement & Grief Support

Children experience grief differently than adults, and historically their need for support has often been overlooked. But that is changing. More families, schools, and community groups are recognizing the unique challenges young grievers face, and are reaching out to Trustbridge for guidance. They understand that children need a safe and supportive space to navigate their emotions.

That's where Children's Bereavement Services for students kindergarten through high school steps in. This compassionate program provides a safe space for children to express their feelings, connect with peers who understand, and develop healthy coping skills—while embracing joy, laughter, and play as essential parts of life.

WHAT IS GRIEF?

Children learn to identify grief, develop coping skills, and feel supported along their grief journey.

BEREAVEMENT SERVICES

Bereavement services are delivered through individual, family, and school-based counseling, as well as camps and workshops. Programs are available for everyone in our community, whether or not their loved one was in Trustbridge care.

PARTNERS IN
COMPASSION

"I don't know how you do it. We tried everything. Now we are seeing improved grades and behavior. Thank you for your help!"

— School Staff to a Trustbridge Grief Counselor

TRAINING THE NEXT GENERATION OF CAREGIVERS

Hospice Nurse Residency Program

Amid the national nursing shortage, ensuring quality hospice and palliative care remains a priority. Trustbridge's Registered Nurse Residency Program directly addresses this challenge by equipping new nurses with the skills, confidence, and hands-on experience needed to provide compassionate, holistic care. By investing in nurse development, Trustbridge is strengthening the future of hospice and palliative care while ensuring our community continues to receive the highest level of support. This innovative program is actively bridging the staffing gap, one skilled and confident nurse at a time.

KAILAH DOUGLAS, RN

"The program has given me a real opportunity to excel in this field."

Kailah's personal growth in the program now benefits patients and families at the Gerstenberg Inpatient Unit.

Patient testimony:

"Kailah has been great, she stayed with me when I was feeling down, I appreciated that."

PAULA BRIGHT, RN

Already a knowledgeable nurse, Paula says the program was especially helpful in building her confidence to speak with families.

Patient testimony:

"Paula was able to take my mind off the pain. She's warm and funny."

HEATHER IMMEDIATO, RN

"I'm right where I need to be. I intentionally chose nursing as a second career, despite having over 20 years' experience as a Physical Therapist Assistant. Nursing, and the residency program enhance skills to provide the highest quality care on a deeper and intimate level."

Family member testimony:

"She is the first person to explain things in a way I can understand. This is our first time dealing with hospice and she has put us at ease. Now we can go home and rest knowing mom is being well take care of."

Confidently Skillful

TRAINING THE NEXT GENERATION OF CAREGIVERS

Addison Hines Music Therapy Internship 2024 Graduates

AMAYAH GABRIEL

“Interning with Trustbridge has had a profound impact as a clinical professional and my personal growth. While developing my skills in supporting patients and families during their most vulnerable moments, I built relationships with patients, families, and team members that highlighted the meaningful and collaborative nature of hospice care and affirmed my passion for this field. This journey has not only shaped my identity and purpose as a music therapist but also helped me grow as a compassionate individual dedicated to making a meaningful difference.”

CARLY GRAEFE

“My time as an intern at Trustbridge was infinitely rewarding. I was able to work alongside other music therapists as well as doctors, nurses, social workers, and chaplains, which provided me with several rich experiences and important insights into hospice as a field. On a broader level, it was a privilege to work with a company that aligns with my strengths, my goals, and most importantly, my values.”

SARALYN COREY

“During my internship experience, I had the honor of working with many patients and families at end-of-life. I was able to see first-hand the impact of music and the therapeutic relationship on the physical and mental wellbeing of our patients and families and receive feedback such as: ‘this is best part of my day’ and ‘the music is so relaxing; I can breathe again.’ ”

KEVIN TRAN

“My internship experience was invaluable to my growth as a clinician and as a person. I learned and experienced so much from the music therapy team. The best surprise from my time as an intern was working and getting to learn alongside other professionals in the company!”

Spiritual Care

Enhancing Trustbridge Chaplancy

"The hospice journey is a courageous journey; it is powerful."

At Trustbridge, we are dedicated to meeting the needs of our Jewish community. Rabbi Marci Bloch and the Chaplaincy Team provide meaningful connections to heritage and tradition, offering comfort and support when it matters most.

*Rabbi Marci Bloch,
Director of Jewish
Community Outreach*

"It is an honor to share these sacred moments and recite *Vidui* (closing prayers) with them," Rabbi Bloch reflects. "Jewish songs can be deeply engaging. Patients often light up, reminiscing about singing them as children."

National Institute
for Jewish Hospice

ACCREDITED
2024

Through these sacred traditions, we ensure that Jewish patients and families feel seen, supported, and embraced at the end of life.

TRUSTBRIDGE CHAPLAINS

We are here for families' emotional and spiritual support.

Lovingly Truthful

Trustbridge Honors

Recognizing those who served

A veteran's pinning ceremony is available for all Trustbridge patients as a thank you for their sacrifice. Honors can be presented privately to the veteran, or with family, friends, and staff gathered around.

Deborah Johnson, Ann Summers, and Durwood Young, Trustbridge Veteran Volunteer. Mrs. Summers receives a tribute in honor of her husband, Mr. Peter Summers, for his military service.

Veterans Cafe

Trustbridge hosts Veterans Cafes throughout the year where members of all service eras are invited to connect with other veterans in our community. This is an opportunity to join together in conversation, share military camaraderie, fellowship and refreshments.

VOLUNTEERS

Meaningful Volunteer Experiences

You don't need special skills—just an open heart and a willingness to care.

Volunteers touch the lives of hospice patients and their families each day and in so many beautiful ways.

“Volunteering at Trustbridge this year has been one of the most meaningful experiences. Sitting with patients and caregivers, listening to their stories, or simply been present, has emphasized to me the value of compassion. It reminds me how much small acts of kindness can truly matter. While it can be emotionally challenging, the fulfillment of knowing you’ve brought comfort to someone in their time of need outweighs it all.”

— Gina Afonso, Patient-Visiting Volunteer

For more information on how you can make an impact as a Trustbridge volunteer, contact Joe Hamilton, Project Manager of Volunteer Operations, at jhamilton@trustbridge.com or 561-315-0755 (text/call).

“If anyone is looking for a way to make a real difference in someone’s life, I encourage you to volunteer!”

Thank You, Mr. President

By Jonathan D. Fleece
President and CEO, Empath Health

President Jimmy Carter led a remarkable life, easily regarded as one of the greatest humanitarians of his generation. But among his many accomplishments, perhaps his most courageous act in life was how he bravely and openly surrendered to death.

In February 2023, the Carter Center announced that President Carter “decided to spend his remaining time at home with his family and receive hospice care instead of additional medical intervention.”

Hospice care is often stigmatized as giving up, but Carter’s choice marked the beginning of a profound, twenty-two-month journey towards

acceptance of life and eventual death.

In typical fashion, Carter challenged this notion with the grace and steadfastness characteristic of his sixty years in public life. When his prognosis became terminal, he quietly enrolled in hospice care, inviting a team of nurses, aides, counselors, chaplains, and therapists into his home in Plains, Georgia. Rather than battling death, he chose to spend his final months in the place he loved, surrounded by the people he cherished.

Imagine how different our world would be if we all embraced life’s end with such inspiring bravery; if we **allowed hope to exist** in the present moment. In the United States, hospice care is available to every person in the six months leading up to their death, yet most patients spend just a few days or even hours in specialized end-of-life care. According to

the Centers for Medicare & Medicaid Services, the number one complaint from family's post-service is wishing their loved one had started hospice care earlier.

The goal of hospice care is to empower patients to live their fullest lives for the remainder of their time, supporting them in defining what that looks like. Although the Carters have kept much of the former President's care plan private, his presence at the funeral of his beloved wife, Rosalynn, last year was a profound demonstration of what **patient-centered care** looks like.

HOSPICE EMPOWERS PATIENTS

As an admirer of President Carter's care from a distance, the tens of thousands of hospice patients Empath Health serves each year give me a respectful perspective on the effort and care that it likely took for the hospice team to make his presence at the funeral a reality. It must have required multiple hospice specialists, from personal care and dressing to wheelchair transportation and physical support throughout the service. In hospice care, we start our visits by asking patients and families, "What is important to you today?" For the Carter family, it was clear that honoring Rosalynn, grieving her loss, and celebrating her life was paramount, and **hospice care made it possible.**

Perhaps adding to the stigma surrounding hospice care is the belief that hospice care somehow hastens death. Defying perceptions, **President Carter surprised many by living twenty-two months enrolled in care.** It was

not that much of a surprise to those of us in the industry; several studies have shown that hospice patients live longer than patients with similar diagnoses who are not on hospice care. **Evidence shows that when we switch our focus away from fighting illness and toward what is most important to patients, we see better symptom relief, better pain management, and a profoundly increased peace of mind.**

Like most hospice patients in the United States, both President Carter and his late wife, Rosalynn, received **in-home care**. While some assume that hospice is a place; nearly all hospice patients receive care where they reside, versus in-patient care. Whether it's a single-family home, a nursing home, or an assisted living facility, **hospice services are brought to the patient.** For President and Mrs. Carter, hospice enabled them to spend their final days in the home they built 64 years ago. This deeply personal setting allowed them to experience the end of life with dignity and comfort, surrounded by loved ones.

President Carter demonstrated that embracing hospice care is not about giving up, but rather choosing to live fully in the time that remains. By opting for hospice, individuals and their families are provided with comprehensive support that prioritizes comfort, dignity, and personal wishes. President and Mrs. Carter exemplified the courage to face death with grace. May we follow their example, embracing the hope that hospice offers and finding the strength to meet life's end with bravery and serenity.
